

ArtStudy Online—a rich multimedia experience in the history of art

Access is enclosed with every new copy of the 13th Edition of *Gardner's Art through the Ages*

This dynamic, interactive website gives students access to a host of useful technology resources that reinforce and complement topics in the text. Students will use these tools throughout the entire course:

FLASHCARDS

Students' essential study tool!

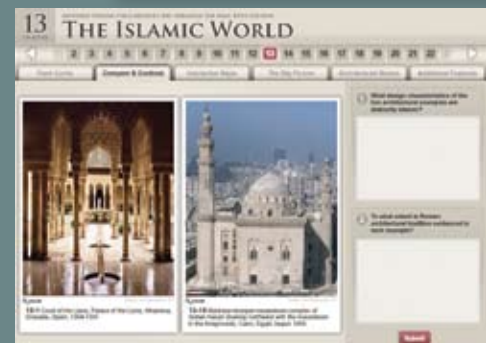

Featuring high-quality images for most of the fine art shown in the 13th Edition of *Gardner's Art through the Ages*, these flashcards help students master the images discussed in the texts with both quiz and study modes.

COMPARE/CONTRAST

With critical thinking questions

These side-by-side comparisons of works of art help students analyze and think critically about the art they are studying. Questions that encourage critical thinking appear next to the images. Answers can be submitted to the instructor.

GOOGLE™ EARTH COORDINATES

With accompanying exercises

By visiting these Google Earth coordinates and interacting with the associated activities, students can more easily connect each work of art to its geographic home.

ArtStudy Online—dynamic, interactive...enriching students' experience with art history

INTERACTIVE MAPS With drop-and-drag activities

Students can quiz themselves on their geographic and chronological knowledge of each chapter with these interactive features.

VIDEO CLIPS Featuring selected architectural monuments

Students can navigate through and zoom in and out of these clips of architectural landmarks, deepening their understanding of textbook discussion.

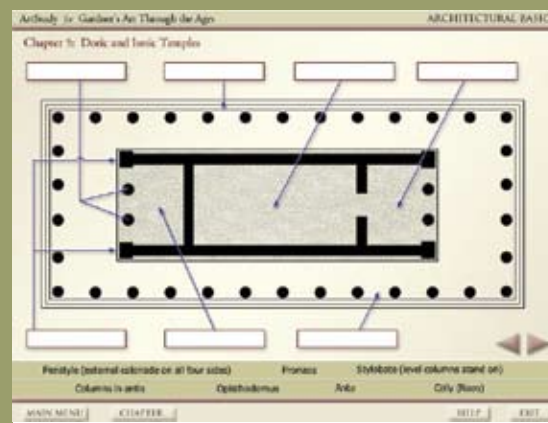

AUDIO STUDY TOOLS

Provide audio reinforcement of key concepts your students can listen to from their personal computer or MP3 player. Created specifically for this textbook, Audio Study Tools include chapter overviews and quiz questions, giving students a quick, engaging, and convenient way to master key concepts.

STUDENT TEST PACKET A practice test for each textbook chapter

Including multiple-choice, true/false, and short-answer questions, these tests are an excellent way for students to review and prepare for exams. Complete answers and page references follow each test.

ARCHITECTURAL BASICS

The exercises familiarize students with key terms associated with numerous styles of architecture. Information from the textbook accompanies each exercise—giving students additional background on the various methods of design and construction.

Now split to better pair with the textbook volumes, the *Study Guides* will help students not only remember the information presented in each chapter but also process it on a higher level.

These carefully crafted study tools focus on critical analysis of the subject through a workbook section including discussion, maps, timeline, and essay and multiple-choice questions. To enhance student learning and provide more practical application of information, there are three self-quizzes that cover each chapter of the text. The tests consist of multiple-choice, short-answer, and image-identification questions. Complete answers and page references are located at the end of the guides.

Museum Experience handbooks . . . by geographic region!

Now available by regions of the country, these practical handbooks will enrich your students' museum visits, providing everything from a primer on museum etiquette to preparation tips on how to make the visits more constructive. Individual museums within the region are discussed, including a review of background, collection, and highlights. A handy appendix lists prominent museums throughout the U.S. by state.
